

OPT Portal Project Week 22 Deliverables

(February 18, 2025 - February 21, 2025)

Objective: Complete the implementation and integration of two new features, ensure all code and documentation are updated on GitHub, and prepare for employee performance reviews.

Backend Team Deliverables:

- **February 18, 2025: Final Feature Implementation and Security Checks**
 - **Feature Finalization:** Complete and finalize all backend logic for the new features.
 - **Security Audits:** Conduct security audits to ensure new features comply with the latest security standards.
- **February 19, 2025: Code Review and Documentation**
 - **Code Review:** Perform detailed code reviews to ensure quality and adherence to project standards.
 - **Documentation:** Update backend documentation with comprehensive details of new features and changes.
- **February 20, 2025: GitHub Sync and Database Maintenance**
 - **GitHub Update:** Push the final code for the new features to GitHub.
 - **Database Updates:** Apply necessary database migrations and ensure integrity post-updates.
- **February 21, 2025: Preparation for Employee Review**
 - **Review Prep:** Prepare documentation and reports on backend team's performance and contributions for the review.

Frontend Team Deliverables:

- **February 18, 2025: Feature Completion and Performance Optimization**
 - **Feature Completion:** Ensure all frontend aspects of the new features are fully implemented.
 - **Performance Optimization:** Conduct performance optimization to improve responsiveness and load times.
- **February 19, 2025: Testing and Feedback Integration**
 - **Integration Testing:** Perform comprehensive integration testing with the backend.
 - **Feedback Implementation:** Apply final changes based on the latest team and user feedback.
- **February 20, 2025: Documentation and GitHub Sync**
 - **Documentation:** Update all frontend documentation to reflect new changes and feature implementations.

- **GitHub Update:** Push the latest code changes to GitHub, ensuring version control is up to date.
- **February 21, 2025: Demo Rehearsal and Employee Review Preparation**
 - **Demo Rehearsal:** Conduct final rehearsals to ensure smooth presentation of the new features.
 - **Review Prep:** Gather and prepare all necessary documentation and performance metrics for the employee review.

UI/UX Team Deliverables:

- **February 18, 2025: Final Design Tweaks and Asset Preparation**
 - **Design Finalization:** Make final adjustments to designs based on the latest prototypes and feedback.
 - **Asset Preparation:** Ensure all design assets are ready for integration.
- **February 19, 2025: Accessibility and Compliance Checks**
 - **Accessibility Checks:** Conduct final checks to ensure all designs meet accessibility standards.
 - **Compliance Review:** Review designs for compliance with UI/UX guidelines.
- **February 20, 2025: Documentation Update and GitHub Sync**
 - **Design Documentation:** Update documentation with final design decisions and their rationale.
 - **GitHub Sync:** Upload the latest design assets and documents to GitHub.
- **February 21, 2025: Demo Prep and Review Readiness**
 - **Demo Preparation:** Finalize all materials and support needed for the demo.
 - **Review Readiness:** Compile design team contributions for the employee review.
